Sustainability Long-term Vision and Sustainability Medium-term Plan	<ul style="list-style-type: none"> <li>• Reduction of Environmental Load / GHG Emission Reduction(Scope1&amp;2)</li> <li>• <a href="#">Reduction of Environmental Load / GHG Emission Reduction(Scope3)</a></li> <li>• Reduction of Environmental Load / Energy Conservation, Waste Reduction, Water Resources, Chemical Substances</li> <li>• Climate Change Initiatives (TCFD)</li> <li>• Past Activities</li> </ul>	
Sustainability Long-term Vision	<h2>Reduction of Environmental Load / GHG Emission Reduction (Scope3)</h2> <p>At present, Scope 3 GHG emissions are only measured in Japan, and we are now proceeding with the calculation of emissions for all group companies including overseas. By 2023, we will extend measurements to the whole Group while also improve their accuracy, seeking to identify categories that account for two-thirds of all Scope 3 emissions. We will also deepen the dialogue with business partners and set Scope 3 reduction targets for the entire supply chain.</p> <p>We aim to obtain Science Based Targets (SBT)* certification for our Scope 1 and 2 as well as Scope 3 GHG emission reduction targets.</p> <p>※ SBT (Science Based Targets) Voluntary targets set by business corporations with regards to GHG emission reductions over the course of 5 to 15 years in a manner consistent with the levels required by the Paris Agreement</p>
